OTHER TEXT

- More accessible housing rentals for the disabled
- senior housing
- High property taxes
- Need affordable lots to build 1 (one) level/ranch housing w attached garage within walking distance of down-town
- taxes are too high, preventing buyers of homes
- Homes are empty, no townhomes for elderly to downsize
- water/utility costs
- All of the above
- Yes, homes are an issue. The biggest issues lie in the high cost of electricity, gas, and water.
- Utility’s cost way too much !!
- Property tax rates and utilities
- I don’t know
- personal
- established in another community

- There were no homes for sale in Elkader when we moved back to area- so we built a new home.
- not interested
- We farm in Volga
- Yards are too small.
- Not the school district we want to live in.
- uncertain
- I do not know
- NA
- High property taxes and high sewer/water bills

Q16 – What is the main barrier to renting in Elkader?

#	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	What is the main barrier to renting in the community? - Selected Choice	1.00	5.00	2.62	1.39	1.94	197

#	Answer	%	Count
1	Not enough of the right type of rental units	29.44%	58
2	Not enough affordable rentals	18.78%	37
3	Not enough quality rentals	28.43%	56
4	Rental restrictions (pets, credit, smoking, etc)	7.11%	14
5	Other	16.24%	32
	Total	100.00%	152

Q16 OTHER TEXT

- Unsure
- Availability of rentals
- Senior housing independent living
- Second story rentals do not work for elderly, need an elevator
- Not enough rentals available

- Not enough rentals in general.
- Rental restrictions and not enough places to rent
- Not interested in renting
- Don't want to live in town
- Price for rentals, compared to income made, compared to what is available for rent in Elkader, often with no off street parking makes it rather difficult.
- Not sure
- personal
- not interested in renting
- not wanting to rent.
- not interested
- lack of affordable rentals, most apartments are upstairs so that limits renters with mobility issues
- Not the school district we want to live in.
- I do not know
- NA
- Not interested in renting
- No desire to rent

Q17 – Would you or a family member be interested in living in the following senior housing options in the future? Check all that apply.

#	Answer	%	Count
1	Duplex/townhome	32.21%	96
2	Independent living complex	30.54%	91
3	Assisted living complex	14.43%	43
5	Modifying current home to support aging in place	22.82%	68
	Total	100.00%	298

Q19 – What are SPECIFIC ACTIONS that Elkader should take to improve access to quality and affordable housing?

- I like the idea of implementing some sort of rental repair incentive...we looked at a lot of rentals that were not in great shape. It would be great to find a balance between repairing/renovating current rentals while not spiking the rental costs too high.
- Elkader needs more quality rental properties. I think if there was a complex built, there would be occupants who would rent.
- Quality rentals for those unable to maintain a home loan. Lifted restrictions. Allowing pets, even if that means additional fees. I have many families reach out to me interested in moving back to the area and interested in Elkader specifically, but they end up going to Guttenberg or Strawberry Point where they can find rentals.
- Developers who will provide homes or rentals that are adequately sized or have a floor plan for a wheelchair
- More senior housing
- Need more affordable housing for 1st time home buyers
- Building more housing options, quality and affordable!!!
- We need some small, independent housing units for seniors that are not assisted living. I think this would help sales of some good homes. We have lost people to Cedar Rapids, Dubuque, and other cities to independent living units We are thinking about this.
- Stop raising property taxes just to support everything else that needs fixed.
- Homeowner updates/improvement programs/incentives
- Assist with improvement to homes that could be used as rentals
- Annex more land, give property tax incentives to encourage new construction
- New small homes for seniors or as starter homes for young couples with none or maybe one child.
- Put restrictions on how many affordable houses and apartments are being converted into expensive Airbnb's.
- The new homes being built are outside city. Why? Taxes, More space, What? Housing project area with incentives to attract new investors.
- Lower property taxes and water/sewer bills
- Similar program as Strawberry Point had in past. Tax breaks, assist with down payment, free lots. Too many McMansions built in country. Annex land expand city limits
- Find ways to finance/support construction of affordable senior housing
- More units efficiently constructed to meet specific housing needs of commuting employees. Most likely multi residential buildings, duplexes or even condos. Capitalize on the areas within city limits where water, sewer, or both have already been piped to decrease cost to the city. Expanded city limits via annexation.
- don't know
- Programs to help elderly or disabled people get housing and help maintain it.
- Need to find people willing to build affordable apts. An issue for building homes is where and also nobody wants to build in Elkader city limits and pay the taxes and the water bill.
- Update rental homes/ apt . Offer assistance in contacting for low rent for those who qualify.
- ?
- Reduce taxes and water bills
- Gee don't expand a big cemetery, force occupancy of homes. Attract developers for 300 small independent homes with local transportation. Make rentals more accessible to elderly freeing up the single-family homes.
- Nothing the city can do. I currently make \$12 an hour and it's not a livable wage.
- Apartment buildings
- Provide incentives to professionals that can afford to build a new house and that would open up more affordable housing for first time homebuyers.

- Encourage housing development & incentivize it.
- Condos or town
- Any action that would help.
- Lower property taxes to make it easier to improve affordable housing.
- More emphasis needs to be placed on homes/rentals that are accessible to those with disabilities and the elderly, including being wheelchair accessible. –Zero Entry –Wide doorways –Lever handles on doors –Open floor plans –Safe flooring and/or flooring that makes operating a wheelchair easier – Bathrooms that are safe for all ages–step-in tubs, handrails, etc
- Build an apartment/townhouse complex.
- Lower utilities, allow chickens
- NEED TO HAVE PLACES AVAILABLE
- Don't know
- Make more homes available at an affordable cost.
- Lower property taxes Annexation of surrounding subdivisions and land
- Apartment Building
- Offer incentives or assistance to property owners of smaller house or properties in poor condition to enlarge/upgrade to attract buyers. Incentives or assistance to improve sidewalks and streets. (Sometimes the properties themselves are in good or excellent condition, but the sidewalks (or lack of sidewalks) and streets are in poor condition, so the properties themselves are not as appealing.) We have older couples that could afford a higher-end townhouse/condo. But we also need housing such as apartments for single or couples who are just starting. Is there property the city could purchase and donate to a developer. The developer would have to pay for water/sewer/storm sewer/sidewalks and street infrastructure.
- Inspection of rentals would ensure quality rental facilities. Utility costs encourage people to move to developments outside of city limits.
- Make housing a priority by seeking investors to build affordable new homes.
- Need more rentals for young people.
- Everything is very expensive, from water to everyday living expenses here.
- There needs to be more 2–3-bedroom townhomes with a 2-stall garage, basement, small yard for pets, and community. Also, some of the homes are so dated and need a ton of repairs that it makes them difficult for a young person to buy a starter home. So a program to help rehab homes with quality materials and workmanship would improve the housing inventory.
- Help landlords improve their buildings.
- Rentals that are for disabled people and affordable.
- Need more housing for disabled individuals as in a group home situation
- Older homes need costly updates/repairs. Utilities are more expensive compared to other towns. Not a lot of space to build new homes with being locked in with the river and bluffs.
- Not sure
- Senior apartments with amenities
- Build reasonable spec homes. They sell. Work with current developments/developers.
- Better smaller homes for singles.
- encouraging rehabbing older homes/buildings
- New builds
- incentives to buy homes in Elkader. This could include buying homes built prior to a certain year.
- you need to have activities to keep them here, Community center with exercise, walking opportunities, in-door swimming,
- If there are any vacant homes, they could be knocked down and single-level homes could be built in their place. Additional single level homes could be built outside of town.

- Elkader has way too many Air BNB's in homes that should be available for young adults to rent. They will lose younger members if the community if there are not enough homes that are available and or affordable.
- There are a few homes that are not inhabited & that is sad to see. I do not know how you could rectify that situation? They are not lived in & could be fixed up & livable. Town is sort of land locked as well; water bills are also high as per residents in town.
- 1. Educate on incentives to build new in Elkader. 2. Better use of vacant lots.
- Clean up upper stories in our downtown
- offer more lower-level affordable housing units
- Condo type housing, more first level rental apartments, and more one level affordable homes
- improve roads, sidewalks
- City needs to expand outward
- More apartments, maybe expanding city limits (if financially feasible) Maybe some newer, more updated houses
- Affordable renting. If the rent is high, people are better off to just buy instead of rent.
- More business options, greater variety of social options especially on evenings and weekends, more employment opportunities for professionals
- Make landlord do inspections and bring rentals up to code for safe housing to rent
- Identify if there are enough income-based housing options or landlords/properties that can/will accept HUD vouchers (Section 8) Offer education to landlords on the HUD voucher (Section 8) program to encourage landlords to work with the program. Consider opportunities for developing additional affordable housing units.
- more rental options, landlord incentives, rental inspections/codes
- The taxes in the city are also a deterrent.
- Housing got young families as well as retiring people to fill all their needs
- Affordable housing and financing options
- More newer housing options
- Renovate existing rentals and expand the amount of available rentals, apartments or small homes for new transplants to the area. Create an easily navigable database for landlords and rentals to help prospective citizens find rentals.
- More family rentals would keep the workers from living elsewhere. Providing more of the condo living for the older individuals/couples so they can make their houses available to purchase or rent would be one option.
- Create space for housing development, purchase dilapidated housing, find an investor to build homes.
- 1) Repair and remodel vacant homes, or tear down and replace. 2) Annex new development around city limits. 3) Improve downtown rentals.
- Grants for building and renovating.
- Any affordable housing (to own or rent) is being bought for short-term housing. Elkader can't do anything about this. Only economics! I am concerned that the city will be oversaturated with this class of housing. This short-term housing also affects schools, businesses, city services, etc.
- Restrictions on using single family homes for Airbnbs
- The subdivisions of Elkader are high quality and high-cost homes that families cannot afford to build. Elkader needs an area for affordable construction not luxury. Are there programs you help revitalize older homes with new siding and windows?
- Affordable rental units not governed by income or disability
- Designate city owned property for development. Lower utility costs.
- Support building a small, good quality apartment complex in a nice area - not with a view of the cement plant or coop, for example. Don't need a lot, but some that are nicely built but affordable.
- Lower property taxes and water/sewer bills
- Look at the lots outside of town on Hwy 56 - they haven't been filling up for years. Consider supporting more child care options if we are looking to attract more residents.

Q20 – What do we want to see in Elkader in 2–3 years, as a result of our focus on housing?

- More affordable housing to either own or rent
- More quality housing options
- Elkader has lots of beautiful historic homes but for a young family, those aren't usually feasible to purchase, especially when it comes to upkeep. When we were looking to buy, it was hard to find a small, affordable single-family move-in ready home, so it would be great to see Elkader take steps to make more homes like that available, either with new construction and/or with the current available housing stock.
- Increase population, specifically ages of 24-40 range.
- Encouragement to develop and build to sell surrounding land areas
- More young families available to move back and have affordable rentals.
- More senior housing
- More rentals
- More apartment options of quality and affordability.
- more senior housing, or small senior apartments.
- single story nice homes that are affordable.
- Quality options
- More pet friendly rentals
- 5 new homes, condo complex near downtown
- A site for the above.
- More affordable housing or a living minimum wage in Elkader.
- More housing in Elkader.
- Lower water/sewer bills and lower property taxes
- Expand city limits annex. Too much \$ goes new builds in country
- Affordable rental units
- A quality and quantity increase in housing supply within city limits that increases population density.
- Younger population
- More rentals or affordable housing to bring in new people to do
- Affordable apts for everyone. Need to have some for elderly and handicapped
- Larger population living in Elkader
- Home Improvement Assistance
- Growth in community
- Nothing, the town needs to really figure out what they want to be, put a plan in place and work the plan. Take the blinders off
- N/A
- An apartment building
- More people living in Elkader
- New houses
- Economic & community growth.
- More rental options
- We want to see the younger generations moving here. They keep moving away to the bigger cities. If there were more apartments/houses to rent there would be a bigger influx of families and individuals moving here
- Incentives and lower taxes to help make improvements on affordable housing.
- Fewer McMansions...

- More options for people to rent
- Lower utilities
- APARTMENT COMPLEX
- More housing
- Maybe have some better renting options by building. Have upgrades to current renting areas above businesses in downtown.
- More available homes that meet the needs of the community and less “air b n bs” that take up property and make housing an even larger issue
- Apartments
- Plans/development for senior townhouses/condos and apartments for single couples.
- Affordable, quality homes. Good management of utility costs.
- More affordable family and senior housing
- Keep younger generations around.
- More housing and lower rates for expenses.
- Mid-income new housing, townhomes that would suit a small family, rehab of older homes to take care of issues like windows, siding, roof issues, landscaping/tree trimming and removal.
- More good quality options
- More rentals available for physically challenged individuals
- More affordable rentals for the disabled
- Family size homes, places for rent, more daycare staff
- Zero entry suited for aging folks
- Affordable single-family homes
- Quality housing that attracts and retains quality families that aren’t using pronouns or gender identification. Had to back up after getting to your next question. Why is it important what gender I identify? Stupid question that has absolutely nothing to do with housing in Elkader. There are two genders, period. Should expect nothing less from woke university survey. Please tell me how gender identification has anything to do this survey!?
- more community housing/ subdivisions
- More young families living and working in Elkader, more options for seniors
- Affordable rentals and townhomes
- growing businesses. better access to affordable groceries
- More affordable rentals and more single-level homes
- More rental properties
- Possible apartment building or small hotel/motel for out-of-town visitors
- More houses for sale to potential people who are looking for jobs in area.
- More options available.
- more homes for single people
- More apartments!
- additional affordable rental units
- additional subdivisions, senior living,
- More affordable new developments
- more of the people working in the Elkader area actually living in Elkader
- affordability
- Increased enrollment at Central

- Economic development
- affordable, reasonable single family rentals
- Increase in affordable housing options for individuals and families with limited resources.
- increases rental stock
- affordable senior housing, homes for young families as well as good rentals for those just getting started
- Low and midrange income housing. Not cookie cutter homes in development-attractive variety
- More stores similar to a Fareway or Hy-Vee
- At least 5-10 more rental units
- Additional new homes
- 1) Not another survey we do nothing with. 2) Actual action.
- More quality living
- You can have all the employees - job opportunities in the future, but if they can't afford housing—
- NOT "low-income" housing or apartments, these traditional bring undesirable people to town and end of looking very trashy
- More young families living in Elkader
- Construction of quality affordable apartments Or duplexes
- Progress in development.
- Nice, affordable housing. When I decided to build because I couldn't find a house to buy, I also couldn't find a house large enough to rent. I ended up living in West Union and then with relatives until my house was finished. If you don't have relatives nearby, you could end up just living elsewhere.
- Lower property taxes and water/sewer bills
- More affordable and quality housing for families.
